About TAITRA

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwan businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets.

Since its establishment, TAITRA has developed a well-coordinated trade promotion and information network composed of over 1,200 trained specialists stationed at its headquarters in Taipei, in four local branch offices in Hsinchu, Taichung, Tainan, and Kaohsiung, as well as in over 60 representative offices around the world.

In association with its sister organizations, the Taiwan Trade Center, Inc. (TTC) and the Taipei World Trade Center (TWTC), TAITRA continues to do everything possible to adapt its trade promotion strategies to the changing international trends and conditions. TAITRA's major functions include Market Development, Strategic Marketing, Trade Information Services, Exhibitions, Convention Services, Trade Education, and TaiwanTrade (an e-Trading Hub service).

Tremendous business opportunities can be found in Taiwan's dynamic economy. Taiwan's strategic location, infrastructure and capital make the island an ideal springboard for business operations throughout Asia and the Pacific Rim. TAITRA, together with its experienced trade specialists, all stand ready to help you do business with Taiwan.

Open Die Fasteners, Auto Parts, Bolts/Studs/Screw, Nuts, Speical Nuts and Washers

Company Profile

AL-PRO Metals Co., Ltd., establishes in 1988, has been dedicated to supply a wide range of automotive fasteners, special screws, bolts, nuts and washers.

With strong high-tech processing expertise, the company is capable of providing aluminum alloy, stainless steel, titanium alloy steel materials, and so on. As an ISO9001:2008 and ICEQ QC080000:2008-certified company, AL-PRO also covers product portfolio on logistics & sourcing services (Total Solution).

At present, the hot-selling items are Auto Parts fasteners, Ball stud, T stud, Auto Special Nuts, micro screws, nuts, self tapping screws, furniture screws, concrete screws, T-bolts and square head screws. Headquartered in Kaohsiung City, Southern Taiwan, AL-PRO can offer total solutions to customers all over the world. Thanks to the long-term efforts on product development, the company can offer one-stop-purchasing services to help customers save time in purchasing.

At the moment, the firm is capable of turning out 11,200 metric tons of screws per year. In addition to domestic sales, the firm's products have been well received in international markets such as Europe, Asia, the U.S. and Latin America. (BS)

Products

Roofing Screws, Self Tapping Screws, Self Drilling Screws, Drywall Screws, Chipboard Screws

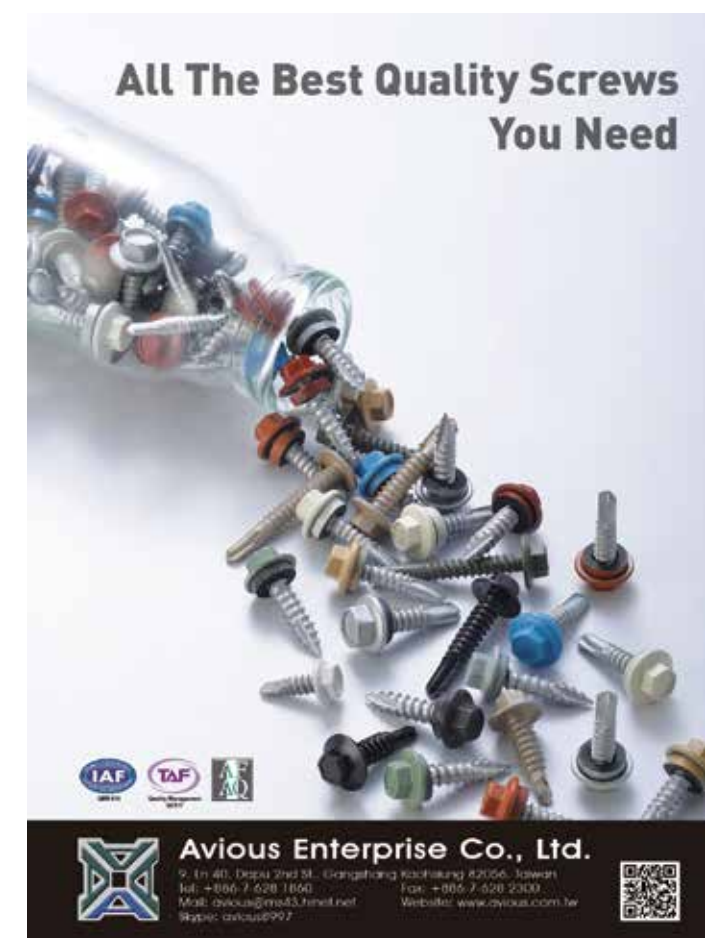

Company Profile

Avious Enterprise Co., Ltd. was established in year 2000 and was originally a screw processing factory. In order to directly service international buyers and provide excellent quality, an international trade department was established. Our main products are tapping screws, self-drilling screws, roofing screws and customized screw. All our products are produced according to AS standard, DIN, IFI, and other major international specifications. We are ISO certified to ensure the quality of our products. Our products are sold to many countries, such as New Zealand, Australia, Germany, and other countries in Europe. Our goal is to provide customers with complete and timely service. Due to geographical advantages and convenience of information processing, we help customers locate the hardware products that they require.

The development and improvement of products is also a main focus for Avious. We have an excellent research and products develop team that can develop new products according to customers' requirements. We are experienced in many types of R&D and own patents.

Technology is our other forte. Our production line staff is highly educated and experienced, and ensures that our product quality is constantly improving so that customers' products are always guaranteed.

Avious has always been committed to product optimization. We understand that even excellent products without attractive packaging will lose value in the eyes of customers, which is why our packaging department strives to provide our customers with packaging that is as finely crafted as our products.

Blind Rivet Nuts, Blind Rivets, Blind Rivet Studs, Semi-Tubular Rivets, Insert Nuts, Binding Post Screws, Turn Parts

Company Profile

Filrox Industrial Co., Ltd, founded since 1975, located in the middle of Taiwan, with years of experience and profession, has been supplying all kind of fasteners through out the world.

Our products range include the field for automotive, industrial, machinery, construction, special parts according to drawings as well as commercial application.

The company is accredited by ISO 9001:2008 and TS 16949:2009 TUV CERT. Our continuous research and development (R&D) program and quality assurances allow the company winning worldwide customers' trust.

Specialize in making rivet nuts and insert nuts products from thread M3 to M12 with Iron, Aluminum, Brass and stainless steel and the products quality are up to the standard of AVK or BOLLHOFF.

We are able to supply LEVEL 3 PPAP documents for automotive parts upon request.

Our main facilities are Cold forming machines, the manufacturing department uses the most precise and advanced High-Tech Multi-Process Cold Header equipments, from 1-die-2-blow to 6-die-6-blow, including Bolts former machines, Screw heading machine and Parts Former machines.

Also Blind Rivet assembly machines.

We have full automatic thread tapping machines for all kinds of inserts nuts.

The Inspection Instruments for testing and quality control, are including Tensile strength test machine, Torque Wrench, Plating thickness inspection machine, Projector, 2.5D Coordinate Optical Vision Measuring and Optical Sorting Inspection Machine with 4 cameras. QC engineers examine full sizes by the Sorting machine.

Filrox is a professional manufacturer of screws, rivets, blind rivets, blind rivet nuts, blind rivet studs, turn parts and related parts. Manufacturing metal fasteners has been our professional for forty years.

We have always believed in our corporate principle the "Practicality, Responsiveness, and Never-Ending Improvement for Customers" would enable us to earn your support and cooperation together. We will achieve and enjoy a "fine quality and best product" .

Providing our customers best service by incorporating with customers' specific needs is strongly believed in the company for establishing and maintaining long-term buyer/seller relationships.

Nuts

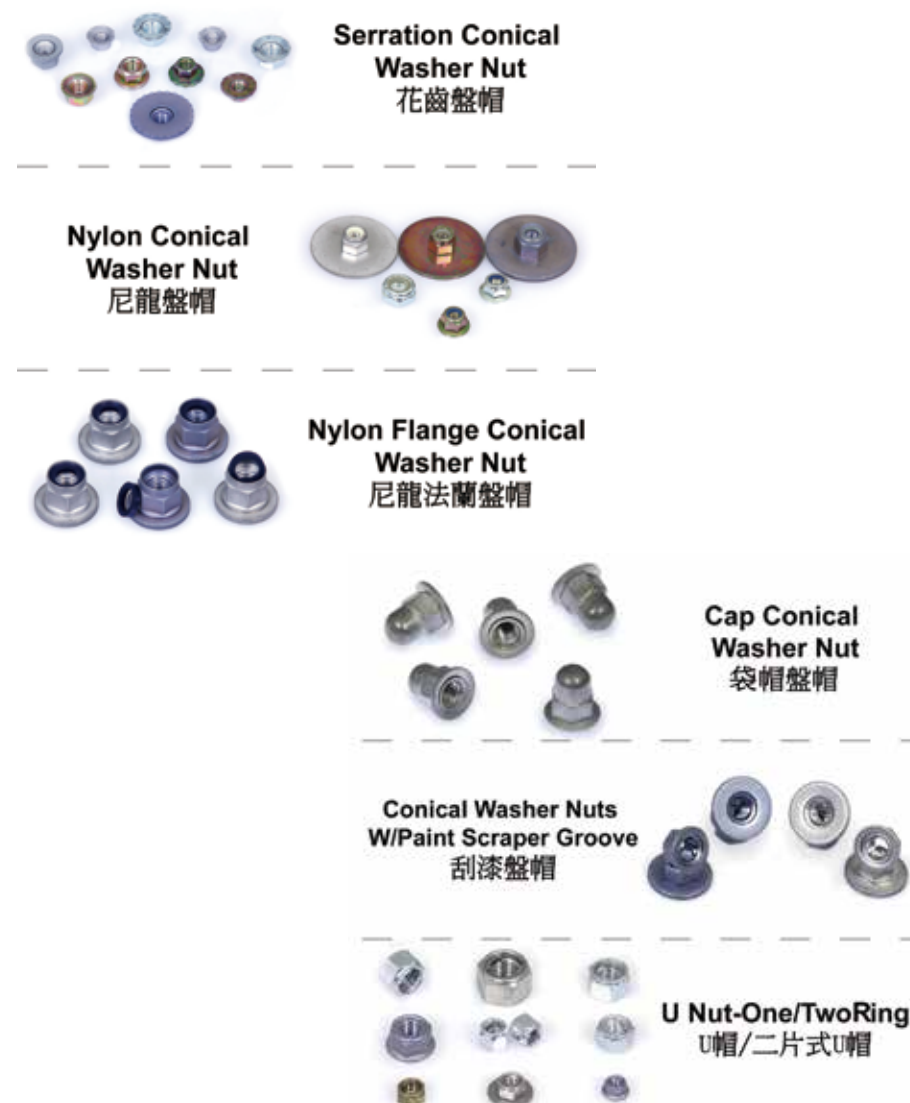

Company Profile

Established in 1999, Shawguang Enterprise is an integrated nut manufacturing company situated in Taiwan focusing in manufacturing sems nuts. All our products are produced in house through our four main departments: Nut forming, Tapping, Washer Stamping and Assembling.

In 2007, due to the growth of our company we had decided to take the challenge and expand our production line to Shanghai (China) through our subsidiary, Taichang Shao-Cheng Hardware Industry. Not long after, we obtained the TS16949 certification, leading the company to focus on auto sems nuts.

Over the years, we have established a nut mold and punch Design and Manufacture Department providing security for customer drawings, design and faster engineering change. Not only focusing on the growth of our manufacturing departments, the company has also recently upgraded to the newest sorting machine (4 cameras and glass transfer plate) to assist in maintaining the highest quality of our products.

Company Profile

SUPER NUT INDUSTRIAL LTD. was founded in 1975. From the old era of 1-die 2-blow cold headers for rivets, leather hardware and binding posts, to modern multi-stage cold forging for fasteners such as screws, nuts, and blind rivet nuts. Our wide range of product applications include furniture, transportation (air, land, and sea), agriculture, construction, electronics, telecommunication, and automobile accessories. Our customers range from Asia to America, Europe, and the Middle East.

SUPER NUT has compiled a solid technological process for the production and quality control of our products over the last few decades. We are capable of offering a wide range of exceptional products. In order to manufacture the best products, we are constantly researching new technology and introducing the most advanced and precise automatic production equipment. Our dedication in this regard allows us to provide product-test reports at your convenience.

In addition to our wide range of products, we are also dedicated to providing OEM manufacturing and production, support services for custom-made parts, and full cooperation with client-order demands.

Our competitive products include

1. Standard (American/European) or Special Blind Rivet Nuts (Best seller)
2. Blind Rivets
3. Solid or Hollow Rivets
4. Insert Nuts
5. Sex Bolts & Binding Posts
6. Welding Nuts
7. Self Clinching Studs Nuts Standoffs(Best seller)
8. Brass Knurl Inserts

Retaining Rings(External & Internal), E-Rings & Crescent Rings, Spring Pins, Speed Nuts, Curve Washers, Toothed Lock Washers, Wave Washers, Disc Washers, R-Pin, U-Nuts, Custom-Made Stamping Parts, Tooling Design

Company Profile

Since the establishment of Tzong Ji Metal Co. in 1988, in gratitude to all our customers for their cordial patronage and support we continuously grow up in both oversea and domestic industrial fasteners markets, and finally play a pivotal role in the field of retaining rings and clips.

We fully applied our long accumulated experiences to tooling development. With the help of self-owned MITSUBISHI wire cutting machine, we adopt a thoroughly integrated process including tooling design, cutting steel plates, tooling assembly, and stamping manufacturing; and in view of promoting the production we modified the original tooling design for retaining rings to reduce the drawbacks in manufacturing process. National patents for new designs of molds for producing retaining rings and wave washers were also approved in the past years. After incessant struggles for achievement of high quality products and content service standards, we became the first company in this field to acquire ISO 9002 certification in Taiwan.

Therefore, in order to further reduce cost and surpass our competitors, Tzong Ji Metals invested a new factory in 2009 in Taiwan and purchased a large number of production machines like special purpose machines and testing machines...etc., so as to expand production capacity to supply all customers and especially the valued long-term customers. In 2011, our new factory was completed and our production capacity was increased by 50%.

In expectation of controlling the critical production process to meet the demands from our automobile manufacturing customers, in 2013 we purchased a salt bath heat treatment furnace (Austempering) and a X-ray instrument for coating thickness measurement. With these in-house equipments we can get better control of the quality and the yield.

It is well known that austempered fasteners show excellent performance on strength and wear resistance. In the same year we also purchased several automated machines and automated sorting machines so as to expedite the delivery schedule.

In 2013, for getting further trust from customers we started to implement ISO/TS 16949 quality management system and got the certificate in 2015.

In 2016, after we purchased several automated optical inspection machines (CCD), our product quality is boosted to a higher level now.

Company Profile

VERTEX PRECISION is a professional and ISO-9001 and TS-16949 certified fastener manufacturer in Taiwan. We specialize in non-standard fasteners and focus on automotive industry. Besides in-house manufacturing of various multi-staged cold formed bolts and nuts and joint adventure with partner manufacturers for NC lathing and CNC, we also work with reliable subcontractors for secondary operations, such as welding, drilling, stamping, assembly, custom package, etc. in order to provide "one-stop" services to meet different needs from customers.

In addition to manufacturing capability, quality is also our priority. Initial samples, production samples as well as final samples are all well inspected to international or customers' standards by experienced inspectors at our in-house well-equipped QC lab. Inspection certificates and PPAP documents are all generated from our lab and provided upon customers' request.

Vertex team focuses on customers' satisfaction. To meet or even exceed customers' expectations is always our goal. Customers' custom requirements are always welcome and Vertex team will do our very best to customers' satisfaction. We look forward to receiving RFQ's and starting solid and long term partnership with you in the near future.
